Index

3

3D Rendering Module, **28**, 17

A

Application Programmer's Interface, API, **8**, 2, 3, 7 *thru* 10
archival, 11
Athena widgets, 3

C

C binding, 2, 7
Central Structure Store, CSS, **11**, 2, 9, 27
client-side CSS, 2
client-side traversal, 2
communication
    API/PM, 9
    diPEX/ddPEX, 19
CopyOC, 28
cross-reference update procedure
    lookup table resources, 25
    name set resources, 26
    PEX font resources, 26
    PHIGS workstation resources, 23
cross-referencing resources, 21

D

data flow
    ddPEX
    ddPEX"
    diPEX, 16
    flow of control, client side, 8, 10
    PEX-SI, 2 *thru* 4
ddContext, 26
ddPEX, **16**, 2, 4
ddPEX porting layers
    PHIGS Workstation Module, **23**
    Rendering Control Module, **26**
    Shared Resources Module, **25**
    Transformation Module, **27**
    3D Rendering Module, **28**
    miscellaneous functions, 29
ddx, 2, 3, 17, 28
DestroyOC, 28
device coordinates, 28
device dependence, 4, 16, 26
device independence, 16, 26
diPEX, **16**, 2, 4
display dynamics, workstation, 23
dix, 2, 3
double buffering, 13
drawable workstations, 12
drawables, 25, 27

E

enumerated types, 29
errors
    client side, 10, 13
    ddPEX, 29
    diPEX, 16
event queue, 11
ExecuteOC, 24, 26, 28

F

flow of control, client side, 8, 10
font resources, **26**
foundation layer, 17

G

generic workstations, 12
graphics pipeline, 27

I

immediate mode rendering, 26, 27
implementation-dependent constants, 29
initializing ddPEX, 29
input, 10
InquireOC, 28

L

Level 0, See ddx
Level 1, See 3D Rendering Module
Level 2, See Transformation Module
Level 3, See Rendering Control Module
Level 4, See PHIGS Workstation Module
lookup table resources, **25**, 23, 26, 27

M

metafiles, 11
mixed traversal, 2
Model Extension, 2, 15
modules, See *ddPEX porting layers*

N

name set resources, **26**, 23, 27

O

operating system dependence, 4, 16
os, 2
osPEX, **16**, 2
output commands, OC, 27

P

ParseOC, 28
PEX font resources, **26**
PEX packets, 3, 19
PEX-ME, 2, 15
PHIGS, 2, 7
    escapes, 10, 13
    event queue, 8
    input devices, 8
PHIGS Monitor, PM, **9**, 2, 3, 8
PHIGS PLUS, 2, 7
PHIGS Workstation Module, **23**, 17, 25
PHIGS workstation resources, **23**, 25, 26
pick measure resources, **25**, 23
pipeline context resources, **26**, 27
porting, **4**, 2, 15
procedure tables, 23, 26, 28

R

redraw events, 8
renderer resources, **26**, 25, 26, 28
Rendering Control Module, **26**, 17, 25
rendering pipeline, 15, 17, 23, 28
ReplaceOC, 28
resize events, 8
resources, 19 *thru* 22
    cross-referencing, 21
    lookup table resources, **25**, 23, 26, 27
    name set resources, **26**, 23, 27
    PEX font resources, **26**
    PHIGS workstation resources, **23**, 25, 26
    pick measure resources, **25**, 23
    pipeline context resources, **26**, 27
    renderer resources, **26**, 25, 26, 28
    search context resources, **25**, 23
    semi-opaque, 21
    structure resources, **23**, 23
    visible, 20

S

search context resources, **25**, 23
semi-opaque resources, 21
server extension, **15**, 2, 3
server-side CSS, 2, 28
server-side traversal, 2
shared memory, 9
Shared Resources Module, **25**, 17
simple frame buffer, 2, 4
sockets
    communication, 9
    errors, 10
spatial search, 25
specific workstations, 12
structure elements, 23, 27
structure resources, **23**
structure resources, STR, 23
subordinate resources, 21, 22

T

tool kit support, 7
tool workstations, 12
Transformation Module, **27**, 17, 23, 24, 26

V

visible resources, 20

W

window events, 10
Workstation Description Table, WDT, 12
workstation display dynamics, 23
workstations, 12, 13

X

X packets, 3
X resource identifier, 20
X11R4, 2, 4, 15, 17
Xlib, 3
